

PDAC 2024 Booth Presentation Program

Time	Session	Presenter
Sunday, 3 March 2024		
1:30 pm – 2:00 pm	<p>Panel discussion. Partnering for success with the acQure Nova Network.</p> <p>A shortage of industry skills available in the mining industry, paired with growing ESG obligations and a surge in data management challenges, has seen a rising need for industry consultants.</p> <p>Find out why more consulting companies are joining acQure’s Nova Network and how they’re leveraging acQure’s suite of products to grow their business. In this panel discussion, hear from the perspectives of a new Nova Network partner, experienced partner and acQure customer using a Nova Network partner, on their experiences and the benefits of joining the Nova Network.</p>	<p>Paul Whelan Nova Network Leader acQure</p> <p>Joined by guest panellists</p>
Monday, 4 March 2024		
11:30 am – 11:45 am	<p>GIM Suite: What's new, what's here and what's coming.</p> <p>GIM Suite’s stack of powerful features are continually evolving to help you more efficiently capture, manage and access your geological data across desktop, web and mobile. Explore key feature highlights added from GIM Suite 5 to now, and into the future.</p>	<p>Charl Retief Value Stream Leader – Mining acQure</p>
3:30 pm – 3:50 pm	<p>From data collector to data manager – how being a geologist and database administrator helps drive efficiency gains.</p> <p>Companies are always interested in finding ways to improve efficiency. An efficient process translates into making informed business decisions, generating new ideas, rapid troubleshooting, and accomplishing goals. Data management, therefore, is a vital component. When a geologist takes on the role of a GIM Suite manager, they can utilize their specialized perspective help drive the company forward.</p>	<p>Joanne Scott, Geoscience Database Specialist, Centerra Gold</p>
Tuesday, 5 March 2024		
11:30 am – 11:45 am	<p>Navigating environmental challenges through data and technology</p> <p>How the collaboration between City of Gold Coast, acQure, the community and furry animals is solving real world problems using EnviroSys.</p>	<p>Stuart van de Water Environmental Leader acQure</p>
1:30 pm – 1:45 pm	<p>Embracing software connectivity and collaborative ventures</p> <p>At acQure, partnerships offer customers the benefits of complementary technologies. Discover more about the seamless integrations and interoperability acQure offers through technology partnerships with third party software vendors, and learn about the latest advancements in connectivity.</p>	<p>Steve Mundell Director of Product acQure</p>
3:00 pm – 3:30 pm	<p>Panel discussion – Mining for tomorrow: A data-first approach to sustainable mining</p> <p>Digital technologies are advancing at a rapid rate transforming the operational landscape of the mining and resources sector.</p>	<p>Alison Atkins CEO acQure</p>

*Please note, this is a draft outline of the PDAC presentation program. Times and presentation titles subject to change.

	<p>The industry faces increasing pressure to navigate the complexities of ESG requirements, whilst increasing their output. Inevitably, companies have taken to leveraging emerging technologies to not only meet these challenges but further optimise their operations.</p> <p>At the heart of this is the need for confident decision-making. One of the industry's most valuable assets is its data. To ensure mining companies are equipped to make the right decisions for their operations, we must first turn our attention to having the right information</p>	Joined by guest panellists
3:30 pm – 4:30 pm	Booth reception Share a drink with fellow industry professionals. Beer, wine and soft drinks provided. Please RSVP your attendance to events@acquire.com.au by Sunday, 3 March 2024.
